MESSAGE FROM THE PRINCIPAL

Dear Esteemed Delegates , "Leadership is the capacity to translate vision into reality while uplifting those who walk beside you." – Adapted from Warren Bennis.

At D.A.V. Public School, Sector 14, Faridabad, we remain unwavering in our conviction that true education transcends rote learning—it is a transformative force that shapes integrity, nurtures discernment and kindles the light of inquiry. As we often affirm, "Shine like the Sun— dispel darkness within and radiate wisdom without." It is this inner fire we seek to ignite—one that fuels curiosity and sharpens the brilliance of thought. The Model United Nations stands as a dynamic arena for such illumination.

MUN, in its truest form, extends beyond scholastic boundaries. It is a simulated crucible of diplomacy where ideologies converge, dialogue thrives and convictions are both tested and refined. As Kofi Annan once said, "Knowledge is power. Information is liberating. Education is the premise of progress, in every society, in every family." MUN provides a platform for purposeful discourse and global perspective, offering every delegate the opportunity to evolve—not only as informed individuals, but as conscientious global citizens. For us, education is not a pursuit of accolades—it is the cultivation of awareness. Intelligence is not the destination; it is the light that guides the journey.

We have carefully constituted intellectually engaging committees, an accomplished Executive Board, and a dedicated Secretariat for Conventus 4.0 MUN'26 to ensure a meaningful and enriching experience for every participant. As you embark on this journey of diplomacy and deliberation, I leave you with the words of Ban Ki-moon: "The world is over-armed and peace is underfunded. We need dialogue, not destruction. Participation, not polarization." Let your voice be guided by reason, your ideas inspire change, and your actions reflect the true spirit of diplomacy. Embrace this opportunity with confidence, integrity, and purpose, and leave behind a legacy that inspires others to lead with wisdom and conviction.

Warm regards
Dr. Anita Gautam
Principal

MESSAGE FROM THE EVENT COORDINATOR AND EDITOR-IN-CHIEF (CONVENTUS 4.0 NEWSLETTER)

Conventus 4.0 MUN'26 arrives as more than a conclave of aspiring diplomats—it is a confluence of ideologies, a space where the courage to question meets the responsibility to resolve. It is in these chambers that young minds don the mantle of global citizens, grappling with complexity not to win arguments, but to understand realities.

This edition of Conventus is a celebration of informed voices, dissent with dignity, and solutions rooted in empathy. It reminds us that diplomacy is not passive negotiation—it is the discipline of hope crafted into policy.

As each delegate takes the floor, may they remember the words of UN reformist Ralph Bunche: "Peace is no mere matter of men fighting or not fighting. Peace, to have meaning, must be translated into bread, housing, health, and education as well as freedom and human dignity."

Let Conventus 4.0 be a rehearsal for the future, where reason triumphs over rhetoric and purpose fuels every position paper. In this arena of ideas, may you not only simulate change—but become it. Forge alliances with wisdom, raise motions with intention, and draft resolutions that echo far beyond these walls.

Warm Regards

MS. PALLAVI GULATI

OPENING CEREMONY

UNCSW GENERAL REPORT

By Namya, Press Corps

The report highlights the discussions held on the opening day of the UNCSW, where delegates addressed the issue of economic inequality and the need to promote financial inclusion for women by reducing the global gender pay gap. Delegates agreed that the pay gap is not merely a result of unequal salaries but is rooted in deeper structural challenges, including limited access to quality education, barriers to career advancement, the underrepresentation of women in high-growth industries, and the unequal burden of unpaid care work. These factors prevent many women from achieving financial independence and equal economic opportunities.

Several solutions were proposed during the debate. Delegates emphasized the importance of investing in skill development, expanding STEM education, supporting caregivers, strengthening maternity leave policies, and providing affordable childcare services. They also encouraged greater participation of women in technology, engineering, finance, and entrepreneurship, recognizing that this would benefit both women and national economies. Despite differing viewpoints, the committee remained cooperative and agreed that lasting economic equality requires legal reforms, strong social support systems, and long-term investment in women's education, employment opportunities, and financial empowerment. The session concluded with a shared commitment to turning these ideas into practical solutions for achieving sustainable gender equality worldwide.
